

## General Compliance Statement

Trubriety's licensed treatment program does not depend on, require, or include non-covered interventions. Any adjunctive services are optional, legally compliant, and accessed separately from insurance-reimbursed care.

### **Ketamine**

Ketamine-assisted therapy, when utilized, is provided by licensed medical partners and is not part of Trubriety's insurance-reimbursed treatment program.

### **Psilocybin**

Trubriety does not provide or bill for psilocybin services. When legally permitted, clients may independently pursue such services outside of Trubriety's licensed program.
